Villupuram Dt. 605652

FEEDBACK PROCESSES OF THE INSTITUTION

Feed back is vital for the growth and development of the institution. Positive feedback gives us strength and energy to work towards the achievement of our goal while negative feedback exposes small deficiencies and helps in improving the quality, the E.S College of nursing believes that feedback is an integral part for quality improvement.

- **Feedback process of the Institution:**

There is a mechanism in place for feedback. The college regularly collects feedback on curriculum as well as on infrastructure from various stakeholders like students, faculty, alumni, professionals and employer. The IQAC members prepares standard feedback format with 5-point Likert scale (satisfaction score) after discussing with concern expert.

- **Feedback collection:**

Feedback on curriculum is made available either thorough online link or offline format. Offline feedback is collected by providing stakeholder a standard questionnaire and request for their response in a given format. It is also collected through suggestion box.

- **Action taken:**

After analysis, feedback/ suggestions are discussed thoroughly with all the members, as well as faculties and then action is initiated from the respective body.
